

MULTI - USE GREASE

**REVOGREASE CS™ – EXTREME - PERFORMANCE MULTI-USE SYNTHETIC GREASE**

REVOGREASE CS™ is a premium high-performance calcium sulfonate complex synthetic grease developed for use in demanding grease applications, where high heat and/or wet environments are encountered.

REVOGREASE CS™ offers significant performance advantages over competing greases by incorporating unique and proprietary additive technology which greatly reduces, rust, corrosion, oxidation and bearing wear, significantly reducing operating temperatures and providing superior protection, resulting in longer service life and greater efficiency of your equipment.

REVOGREASE CS™ reduces energy consumption by minimizing mechanical losses and increasing the mean time between planned/unplanned maintenance and/or repair.

**PERFORMANCE ADVANTAGES**

- High Film Strength
- Saves Energy
- Reduces Bearing Vibrations
- Longer Grease Life
- Excellent Corrosion Protection
- Minimizes Mechanical Losses
- Superior Wear Protection
- Resistant to Wash-off

	<b>REVOGREASE CS</b>
	NLGI #2
Thickener Type	Calcium Sulphonate Complex
Base Oil Type	Majority PAO
Viscosity	
cST @ 40 °C	180
cST @ 100 °C	18.5
Viscosity Index	120
Drop Point °C	>300
Cone Penetration	265 - 295
Copper Corrosion 24h 100°C	1B
Water Spray-Off Loss %	15
Water Wash-Out %	2
Corrosion Prevention	PASS
4 Ball EP Test, kgf	400
Service Temperature °C	-30 – 180
